

About the Authors

Terrence L. Chapman, ('01), is a political science major and math minor from Normal, IL. He wrote "Monetary Failures of the Great Depression" for Dr. Stumph's Intermediate Macroeconomics course. He chose his topic because he was intrigued at how an international disaster like The Great Depression could occur.

Emily Griffen, ('00), is an accounting major and economics minor from Springfield, IL. She co-wrote "Chile: The Success Story of a Developing Country" for Dr. Ossella-Durbal's Developing Countries course. She enjoyed the paper because it gave her the opportunity to learn more about Chile's progress in the 1990s.

Dieter M. Haager, ('00), is an economics major and accounting minor from Springfield, IL. Dieter chose to write "How do Investments in Human Capital Differentially Effect Gender Income? An Analysis of the Gender Wage Gap" for his senior project because he was interested in challenging the results of Jennifer Van Dyke's senior project. He believes his findings are useful for anyone entering the labor force.

Sunil Jagwani, ('00), is an economics and computer science double major and math and business double minor from Jodhpur, India. He wrote "Supply and Demand of Venture Capital in the U.S." for his senior project. He selected the topic because of his interest in the Internet and the importance that venture capital investments play in commercializing the Internet.

Peter L. Karlis, ('00), is an economics and risk management double major from Naperville, IL. Peter wrote "IPO Underpricing" for his senior project because he has a great interest in the stock market.

Alex Kons, ('00), is an economics major and

history minor from Crystal Lake, IL. He wrote "Understanding the Chaos of Airline Pricing" for his senior project. He chose the topic because of his long-time interest in the airline industry. He enjoyed showing how basic economic theory could explain a complex pricing system like that of the airline industry.

Quan B. Lai, ('00), is a business administration major and economics minor from Elgin, IL. She wrote "Currency Crisis in Thailand: The Leading Indicators" for Dr. Stumph's Intermediate Macroeconomics course. She chose the topic because she was in Vietnam visiting her family during the Asian currency crisis and was interested in finding indicators that might have predicted the crisis.

Jason Lewis, ('00), is an economics and political science double major from Algonquin, IL. He wrote "Factors Influencing Foreign Direct Investment in Lesser Developed Countries" for his senior project. He chose the topic because he was interested in the difficulties that lesser-developed countries face in their attempt to rid their third world status.

Esteban G. Lizano, ('01), is an economics and business administration double major and math minor from San Jose, Costa Rica. Esteban co-wrote "Chile: The Success Story of a Developing Country" for Dr. Ossella-Durbal's Developing Countries course. He was interested in Chile because of its unilateral opening of trade and its selective industrialization.

Kathy-Ann Moe, ('02), is an economics and international business double major from Trinidad, West Indies. She co-wrote "Chile: The Success Story of a Developing Country" for Dr. Ossella-Durbal's Developing Countries course.

Marta Siaba, ('01), is a business administration major and economics and Spanish double minor

from Chicago, IL. She co-wrote "Chile: The Success Story of a Developing Country" for Dr. Ossella-Durbal's Developing Countries course. She enjoyed writing about Chile because of its rapid development relative to other Latin American countries.

Michelle Stone, ('01), is an economics and political science double major and international studies minor from Hoffman Estates, IL. She co-wrote "Chile: The Success Story of a Developing Country" for Dr. Ossella Durbal's Developing Countries course. She enjoyed writing the paper because of the interaction of politics and economics in Third World Chile.

Jennifer Van Dyke, ('99), was an economics and business administration double major with a minor in math. Jennifer wrote "Does is Pay to Be a Man? A Study of Pay Differentials Among College Graduates" for research honors. She chose the topic because she was disturbed by the wage differential between males and females. She is currently a Healthcare Consultant for Arthur Andersen.
