

General Faculty Meeting
January 9, 2012
Nominating Committee Report

Nominating Committee welcomes Min-hyung Kim to its membership for the 2012 spring semester.

Professor Kim fills a vacancy in the committee roster left by the retirement of Sandra Lindberg. NC is currently working with Rick Lindquist to create an electronic (Survey Monkey), mock ballot that will be distributed to tenure line faculty early in January as a test of this software for possible use in future faculty elections. We hope that many will respond to the ballot as we look at issues related to anonymity and security. Parliamentarian Joerg Tiede informs us that the adoption of any electronic balloting software will require an amendment to the Faculty Constitution. More to follow...

Respectfully,

Robert Delvin, chair

Nominating Committee
