**Double Major vs. Double Degree**  
 Double Majors are possible only when both majors lead to the BA or BS. Combining a BFA, BM, BME or BSN major with a BA/BS major requires a **double degree**, which entails earning a total of at least 40 course units. (While performance/professional majors in Art, Music and Theater Arts lead to a BFA or BM, majors, with shortened requirements, are also offered in these areas which lead to the BA.) The University does **NOT** award two degrees from the College of Liberal Arts.
