Use this printable form as a tool for course selection. It can be used as a document students use to prepare for their advising appointments, but should be completed and approved on a semester-basis with his/her academic advisor. It is recommended that the advisor and/or student generate a degree evaluation before the course selection process begins in order to determine what requirements are still left to be completed. *Indicate the courses the student plans on registering for; in addition, check off any and all of the boxes of the requirements the course will fulfill.* The shaded area can be used for alternate choices in case the student’s first choices are closed. *Once completed, print/copy one copy for the student and leave one copy in the student’s advising folder.*

**STUDENT’S NAME:** _____________________________  **IWU ID:** _____________________________  **EMAIL:** _____________________________

**ADVISOR’S NAME:** _____________________________  **PIN:** _____________________________  **DATE:** _____________________________  **TERM/YEAR:** _____________________________
