

Publications:

Jaeckle, W.B. and R.R. Strathmann (*in review*). The anus as a second mouth: Anal suspension feeding by an oral deposit-feeding sea cucumber. submitted to *Invertebrate Biology*.

Jaeckle, W.B., M. Kiefer, B. Childs, R. G. Harper, J. W. Rivers and B. D. Peer (2012, *in press*). Comparison of eggshell porosity and estimated gas flux between the brown-headed cowbird and two common hosts. *J. Avian Biology* 43: 1-5.

Pernet, B. and W.B. Jaeckle (2004). Size and organic content of eggs of marine annelids, and the underestimation of egg energy content by dichromate oxidation. *Biol. Bull.* 207: 67-71.

Bingham, B.L., K. Chun and W.B. Jaeckle. (2004). Energetics of brooding in the seastar *Leptasterias hexactis*. *Can. J. Zool.* 82: 1-7.

Bosch, I., D. Karentz, and W.B. Jaeckle. (2004). Distribution of invertebrate larvae in relation to physical structure and UVB-light intensity in the water column off Anvers Island, Antarctic Peninsula. *Ant. J. United States.* 33: 33-37.

Knott, K.E., E.J. Balser, W.B. Jaeckle, and G.A. Wray. (2003) Identification of asteroid genera with species capable of larval cloning. *Biol. Bull.* 204: 246-255.

Kehle, P and W. B. Jaeckle. (2002). A long way from home: Transatlantic sea star migration. Consortium (The Newsletter of the Consortium for Mathematics and Its Applications). 82: 12-15.

Jaeckle, W.B. and M.E. Rice. (2001). Chapter 19: Phylum Sipuncula (In:) *Atlas of Marine Invertebrate Larvae*. Young, C., M. Sewell, and M.E. Rice (eds.). Academic Press. pp. 375-396.

McEdward, L.R., W. B. Jaeckle, and M. Komatsu. (2001). Chapter 26: Phylum Echinodermata: Asteroidea (In:) *Atlas of Marine Invertebrate Larvae*. Young, C., M. Sewell, and M.E. Rice (eds.). Academic Press. pp. 499-512.

Balser, E.J. and W. B. Jaeckle. (2001). ...And then there were two. *Natural History Magazine.* 110(2): 54.

Young, C.M., M. Devin, W.B. Jaeckle, and S. Ekaratne. 1996. Biotic and abiotic factors influencing larval development at bathyal depths. *Oceanologica Acta.* 19: 263-271.

Jaeckle, W.B. 1995. Transport and metabolism of alanine and palmitic acid by field-collected larvae of *Tedania ignis* (Porifera: Demospongiae): estimated consequences of limited label translocation. *Biol. Bull.* 189: 159-167.

- Jaeckle, W.B. 1995. Variation in the size, energy content, and biochemical composition of invertebrate eggs: Correlates to the mode of larval development. Chapter II. (In). *Ecology of Marine Invertebrate Larvae*. L. McEdward (ed.), CRC Press - Marine Science Series. pp. 49-78.
- Jaeckle, W.B. 1994. Rates of energy consumption and acquisition by lecithotrophic larvae of *Bugula neritina* (Bryozoa: Cheilostomata). *Mar. Biol.* 119: 517-523.
- Jaeckle, W.B. 1994. Multiple modes of asexual reproduction by tropical and subtropical asteroid larvae: an unusual adaptation for genet survival and dispersal. *Biol. Bull.* 186: 62-71.
- Balser, E.J., Ruppert, E.E. and W.B. Jaeckle. 1993. Ultrastructure of auricularia larval coeloms: evidence for the presence of an axocoel. *Biol. Bull.* 185: 86-96.
- Jaeckle, W.B. and D.T. Manahan. 1992. Experimental manipulations of the organic chemistry of seawater: Implications for studies of energy budgets in marine invertebrate larvae (Mollusca, Echinodermata). *J. Exp. Mar. Biol. Ecol.* 156: 273-284.
- Manahan, D.T. and W.B. Jaeckle. 1992. Implications of dissolved organic material in seawater for the energetics of abalone larvae *Haliotis rufescens*: A review. p. 95-106 (In): *Proceedings of the 1st International Symposium on Abalone Biology, Fisheries and Culture* (Eds.) Shepard, S.A., Tegner, M., and Guzman del Proo, S.A.. Fishing News Books. Blackwell Sci. Publ.
- Jaeckle, W.B. and D.T. Manahan. 1989. Growth and energy imbalance during development of a lecithotrophic molluscan larva (*Haliotis rufescens*). *Biol. Bull.* 177: 237-346.
- Jaeckle, W.B. and D.T. Manahan. 1989. Feeding by a "nonfeeding" larva: Uptake of dissolved amino acids from seawater by lecithotrophic larvae of the gastropod *Haliotis rufescens* Swainson. *Mar. Biol.* 103: 87-94.
- Jaeckle, W.B. and D.T. Manahan. 1989. Amino acid transport and metabolism by larvae of *Urechis caupo*, a new species in axenic culture. *Biol. Bull.* 176: 317-327.
- Manahan, D.T., W.B. Jaeckle and S.D. Nourizadeh. 1989. Ontogenic changes in the rates of amino acid transport from seawater by marine invertebrate larvae (Echinodermata, Echiura, Mollusca). *Biol. Bull.* 176: 161-169.
- Jaeckle, W.B. 1984. The opisthobranch mollusks of Humboldt County, California. *The Veliger* 26: 207-213.
- Jaeckle, W.B. 1983. Additions to the opisthobranch fauna of Marin County, California, with notes on the biology of certain species. *The Veliger* 26: 93-95.
- Jaeckle, W.B. 1981. New distribution records for two California nudibranchs. *The Veliger* 23: 240.
