ECOBRICKS

WHAT
Ecobricks are plastic bottles filled with plastic waste. Combined with cement/clay they are used for construction purposes.

WHAT
Ecobricks ay plastic bottles na puno ng plastic waste. Kasama ng latagan ng semento/luad, ginagamit ito para sa pagtatayo.

WHY
They help to clean up the environment and make use of plastic waste. It is a healthier and safer alternative to burning waste.

WHY
Tumutulong sila upang linisin ang kapaligiran at gamitin ang plastic waste. Ang malusog at mas ligtas na alternatibo sa pagsunog.

Please dispose of plastic waste in this bottle.
