

## 2026 First-Year Student Experience Survey

---

### *Observations*

The 2026 administration of the FYSES yielded a strong response rate (37%) with a comparable distribution demographically by race/ethnicity. This is the largest response rate for a first-year survey since 2018.

**There are three areas of attention in the FYSES:**

**Satisfaction:** Levels of satisfaction with various University resources (seven items).

**Belonging:** A sense of fitting in or feeling like you are an important member of a group (six items).

**Self-Efficacy:** A person's belief in their ability to succeed in a particular situation (eight items).

**Seventeen of the 23 questions yielded a positive response (mean of 3.00 +).**

The largest mean score was "How respectful towards you are IWU faculty and staff?" (3.66).

The lowest mean score was attributed to "How well do people at IWU understand you as a person?" (-2.72).

**Five items had combined low ratings of 20% or greater:** Course Availability, Value of an IWU Education, People Understanding You as a Person, Connection to Faculty & Staff, and Mattering to Others (the same items appeared in the 2025 FYSES).

**Ninety-three percent** of the student respondents indicated that they were "Very Satisfied" or "Satisfied" with their choice to attend IWU.

Similar to last year's FYSES administration, when examining correlation coefficients the following areas have the greatest relationship with overall student satisfaction:

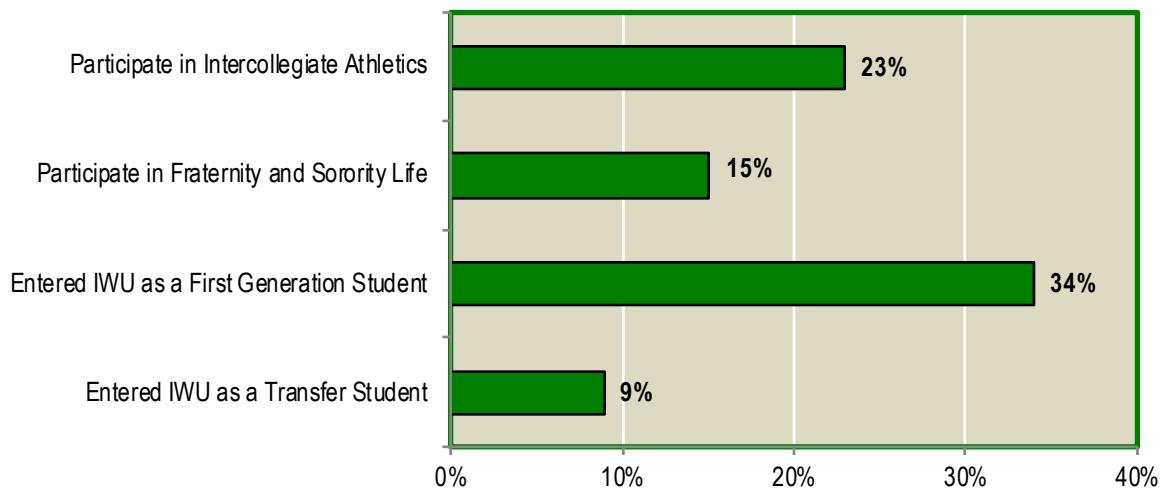

- 1) Belonging (.704) - **Very Strong Relationship**
- 2) Satisfaction with University Resources (.624) - **Strong Relationship**
- 3) Self-Efficacy (.474) - **Moderate Relationship**

**Please see Page 7 for more details.**

*How satisfied are you with your choice to attend IWU?***Very Satisfied & Satisfied = 93%****N = 189****2025 FYSES = 89%*****Correlation Coefficients between Overall Satisfaction and 1) Resource Satisfaction, 2) Belonging, and 3) Self-Efficacy***

Correlation coefficients measure the strength of the relationship between two variables. A correlation between variables indicates that as one variable changes in value, the other variable tends to change in a specific direction.

Similar to last year's FYSES administration, when examining correlation coefficients, the following areas have the greatest relationship with overall student satisfaction:

- 1) Belonging (.704) - Very Strong Relationship**
- 2) Satisfaction with University Resources (.624) - Strong Relationship**
- 3) Self-Efficacy (.474) - Moderate Relationship**

Correlations are significant at the 0.01 level (2-tailed).

***Mean Scores for the Individual Questions***
