

Report of the Assessment Committee

The Assessment Committee has met twice this year. We reviewed goals for the year and sent out reminders of reports due to all Assessment Liaisons, which is either an Assessment Report or a Yearly Update, depending on the cycle chosen last year. Both types of reports are due September 30th.

Additionally, the Assessment Committee is working on ways to facilitate General Education Assessment. According to the schedule, Cultural and Historical Change, the Arts and Intellectual Traditions are due for assessment this year. The Committee anticipates sending invitations to all professors teaching in these categories for a meeting later this semester to determine the assessment activities to be conducted in the spring semester.

Respectively Submitted,

Jaime Peters
