

Report from the Promotion and Tenure Committee
16 October 2019

PAT has met twice since our last faculty meeting. One meeting was devoted largely to the careful review of all Handbook language pertinent to the reviews PAT will be conducting. We have discovered that there are even more endowed chairs past their reappointment review date than we originally thought. We are working on a plan to put us back on schedule by 2021. We will soon be undertaking the development of language regarding evaluation materials for instructional staff with the hope of bringing a motion by the end of the semester. Our other meeting was spent in executive session.
