

MYTH: Food insecurity is not a prevalent problem in the US.

FACT: 1 in 8 American households have difficulties proving enough food for their members. (feedingamerica.org)

MYTH: Africa as a continent is food insecure.

FACT: Severe food insecurity in Africa is 4 times as high as any other region in the world (27.4% of its population). Insecurity rates depends upon region, class, environment, and even gender. (worldhunger.org)
