

Morgan Drath's Bio:

Hi, my name is Morgan Drath. I am a junior nursing major and health minor and am happy to work with students on any academic skills they may be struggling with. I especially enjoy helping students with time management, studying, speeches, and test taking.

The goal of our sessions is to help students come up with new techniques and build academic confidence to promote success. I am familiar with APA and would be happy to help with formatting. Some other classes I've taken include, GIS, Asian Religious Lit, and History of Psychology.

This is my second year as Student Success Tutor.
